

Executive Director Report

FY2025

Your church is important! Your congregation stands proudly as a God-centered community actively worshipping in your neighborhood. You are the heart and hands of Jesus in the world. The NACCC's mission is to assist you. As associated churches of the Body of Christ, together we can do so much more than one church, yet, and most significantly, it remains the individual church where each member works and lives in our relationships with Christ. It is in covenant with each other that our members bring God's Kingdom nearer to their neighbors; this takes place in the community where your church has been planted. We in the NACCC thank you for being a member church and thank the volunteers and staff of our Association who contribute so much time and effort with countless gifts and skills. The NACCC relies on so many to fulfill the work it does. We trust that we can continue to provide the resources that help you be the light of Christ. This has been an exciting year for your Association as it provides the many programs we offer. I was privileged to serve as Interim Executive Director for most of this past year for our Association and have directly experienced the good work done by each member church. Together, may we continue to serve God with all our strength to bring His Kingdom nearer for all.

In Christ's name may you be blessed.

Rev. Dr. Barry W. Szymanski

Interim Executive Director Emeritus
