Happy Life Children's Home provides for the physical, social, and emotional needs of the abandoned children of Kenya in a safe family atmosphere with the possibility of adoption into a forever family.

Happy Life also provides quality education based on Christian biblical values. Through their primary and secondary schools, Happy Life Christian School and Faith Premier High School, they empower their students to excel.

Children at Happy Life receive free medical care, enabling them to lead healthy lives regardless of their conditions. Happy Life's Jesse Kay Hospital also provides top-notch care to community members in the Nairobi area.

Since 2002, Peter and Faith Ndungu's unwavering faith in God's providence has empowered them to facilitate the rescue of over 1,000 abandoned youth.
